AusNet

Epping Underground Cable Installation

When

Monday 9 November - Friday 4 December 2026

Please note, work hours have now been extended to expedite these works and minimise disruption.

Monday - Sunday, 6am to 8pm.

At times, work may need to happen outside of these hours.

Where

Harvest Home Road, Epping.

Reason for works

As electricity demand continues to grow, greater capacity is needed to power homes, businesses and industrial developments.

To support increased demand, we're installing underground power cables on Harvest Home Road (see map over page).

Thank you for your patience and understanding during these essential works.

What this means for you

From Monday 9 November to Friday 4 December, there will be lane closures on Harvest Home Road, between Epping Road and Laino Boulevard. Traffic will be maintained in both directions. Access to Muggabah Road will be maintained. Traffic management and pedestrian detours will be in place.

To do this work safely, we may need to turn your power off. If you are impacted, we will contact you with the date and time.

You may notice:

- changed traffic conditions
- trucks, excavator, horizontal drilling rigs, vacuum trucks and work vehicles on site
- noise, dust and vibration from machinery - our team will minimise these impacts.

Please obey all signage and instructions.
