

Dear Parent,

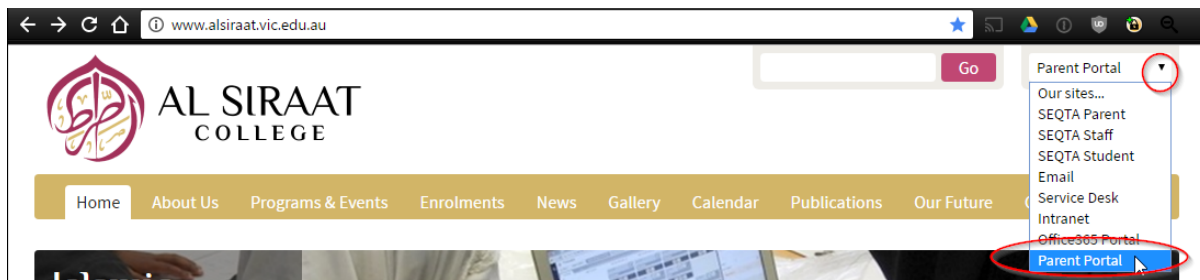

Al Siraat College has a Parent Portal, where you, as a parent, may:

- Check recorded details about yourself and your children, and if necessary, advise Al Siraat College of any changes.
- View accounts and make payments online.

Other features, such as Parent Teacher Interview bookings, would be enabled at the appropriate time, coupled with announcements as necessary.

Access is restricted to parents of currently enrolled students. You may Sign In using the personal email address supplied to the school.

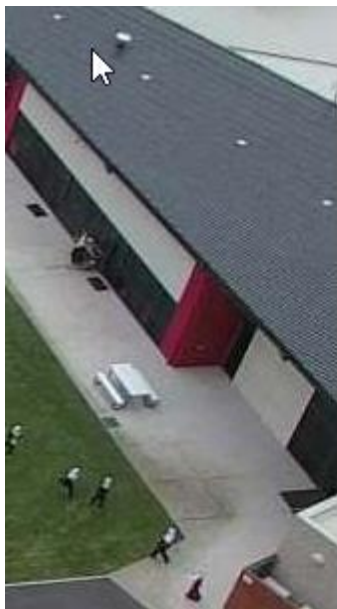

Use the “Parent Portal” Quick Link from the main school web site to access the system:

Before being able to log in to the Parent Portal, a password needs to be set up. See below.

There are two links as shown in the image. The ***Reset*** link is used when you do not know your password, or have lost one that had been set up earlier. That works by sending you an email to verify.

Change will allow you to quickly choose a new password, using a known, older, one.

A screenshot of the Parent Portal login page. It features a text input field containing 'someone@example.com', a password input field, and a blue 'Sign in' button. Below the input fields, there is a message: 'You may use your email address or username in the format ASC\username.' The words 'Reset' and 'Change' are highlighted in blue and circled in red. Below this, another message says 'You may also Reset or Change your password.'

For any further information, please contact the school office.

Yours Sincerely,

Al Siraat College
